

BIGGER IS NOT ALWAYS BETTER!

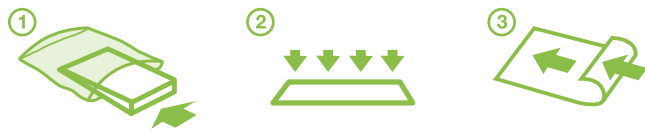

NEW FROM KÖLBS CUSHIONS!

K2 Health Products introduces our Brand New Retail-Optimized Compressed-Packaged Cushion Line! Kölbs' patent pending compressed cushion line allows retailers to offer a full line of popular comfort and medical cushions while maximizing shelf space. Our compression technology works as follows:

1. First, we compress our cushions while they are in a plastic film to remove most of the air.
2. Next, the film is sealed to keep the air from returning.
3. Finally, the compressed cushion is then rolled into a tubular shape to further reduce its size and footprint.

The resulting package is up to 60 percent smaller than comparable products available now. Our compact packaging not only allows retailers to maximize their shelf space, but it is also more Eco-friendly. With a large variety of cushions now available, Kölbs is sure to offer your customers exactly what they need for their ultimate comfort.

DON'T LET THE SMALL BOX FOOL YOU!
