

# Bed Wedge Pillow

A good day starts with a great night's sleep. Acid reflux, neck and back pain, post surgery and other medical conditions can often rob you of the sleep your body needs. The Kolbs® Bed Wedge offers optimal positioning for a comfortable and relaxing slumber.

## 2 Layers Provide Superior Comfort

### Memory Foam Top

The upper layer of the bed wedge features plush memory foam for a comfortable and relaxing night's sleep.

### Medical Grade Foam Core

A high density core layer supports the memory foam top to ensure just the right firmness and proper support.

### Luxurious Jacquard Pillow Case

A removable, jacquard pillow case protects the Kolbs Bed Wedge from stains while promoting a comfortable night's sleep.

## Foam Wedge is Ideal for Head, Foot or Leg Elevation

**Care Instructions:** Cover can be removed and machine washed on delicate cycle. Maximum temperature 60°C (140°F). Do not bleach. Do not iron. Do not dry clean. Tumble dry low or air dry. Foam core can be spot cleaned with a moist, soapy rag. Let air dry. Foam core may never be placed in the washing machine.

**Important Notice:** Bed Wedge is shipped in compressed packaging. Remove Cushion from plastic packaging to begin decompression. The process will begin immediately. Allow several hours for cushion to decompress before use. Please note: Many factors contribute to the speed of your cushion's decompression. In the vast majority of cases your cushion will decompress in the time frame indicated. In the rare case that it does not, please allow the cushion to decompress overnight. Please also note: Although you may use the cushion at this point, it may take up to 24-48 hours for the wedge cushion to reach its peak firmness.

New memory foam has a slight scent. Airing out for 24 to 48 hours will help dissipate the scent.
